

Integro Technologies is an industry leader in machine vision inspection. Having been named Control Engineering's System Integrator of the Year, Integro prides itself on being the largest machine vision integration only company in North America. Integro focuses on machine vision and logistics solutions utilizing deep learning, hyperspectral imaging, robotics, AI, and more. Integro's stellar team provides consulting, training, service, design, development, and more. Integro is a trusted source for industries including pharmaceutical, medical, automotive, aerospace, consumer products, packaging, and more.

### The Beginning

Integro opens in 2001 as a one man operation by Thomas Campion in Pennsylvania. By 2003, Integro is named a Cognex Vision Integrator.

### Joining Forces

In 2005, Shawn Campion and Starke Farley join the company, and Integro moves from Pennsylvania to Salisbury, North Carolina. By the end of 2005, Integro becomes a Cognex PSI.

### Industry Acumen

In 2012 and 2013, Integro is named a System Integrator Giant by Control Engineering Magazine. Integro also wins the Charlotte Business Journal Fast 50 Award.

### Company Expands

Integro Technologies began as a one man operation, and by 2012, there are 14 full time employees including project managers, designers, mechatronic engineers, field engineers, controls engineers, and application engineers.

### Reputation Grows

Integro is named a System Integrator Giant in 2014 and 2015 by Control Engineering and also wins an Advanced Manufacturing Award by the Charlotte Business Journal. Again, Integro is named a Fast 50 company as well.

### Major Expansion

In 2014, Integro's ownership team built a 42,500 sq ft building in downtown Salisbury, NC. Integro occupies 50% of the building with a 14,700 sq ft assembly and test area, plus a 1,000 sq ft Vision Lab. At the same time, Integro is named the first Cognex Platinum PSI.

### System Integrator of the Year

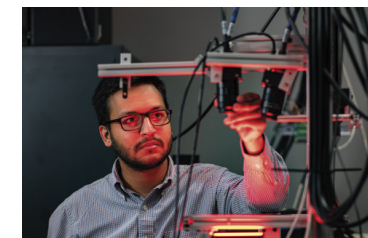

In 2017, Integro is named Control Engineering's System Integrator of the Year.

### Awards Continue

Integro also wins System Integrator Giant awards in 2016 and 2017 as well as a Vision Systems Design Innovator's Award for design and development of challenging vision inspection systems. Integro ranks on an Inc 5000,

### Legacy

Integro's business acumen continues to grow, and the legacy of the company is solidified with customers, vendors, and suppliers.

### Expanding Yet Again

2018 brought an expansion with an additional 5,000 sq ft for Software Engineering office space.

### Vision Lab

Integro's Vision Lab is fully operational for solution testing. Industry leader, David Dechow, joins Integro team as the Principal Vision Systems Architect.

### Industry Giants

Integro wins System Integrator Giant awards in 2018 and 2019 from Control Engineering. Integro continues to be tapped for articles, research, and case studies regarding the machine vision industry.

### IIoT

Integro is named System Integrator Giant in 2019 and 2020 yet again. Integro deepens its partnerships and moves heavily into AI and Deep Learning while looking forward in manufacturing trends.

### Logistics

Integro is named a Platinum Cognex Logistics Partner Integrator and begins expanding its arsenal of services to distribution and ecommerce centers.

### Customer Service

Integro's team continues to expand in the machine vision industry as well as AI, Deep Learning, Robotics, and Logistics. The Field Engineering team expands three-fold, and the total number of employees at Integro reaches 52.

### Building Expansion

Integro begins plans for 15,000 sq ft facility expansion, including a 2,200 dedicated logistic test and development loop, expanded parking, and an outside breakroom.

### Certified Integrators

Integro is 1 of 8 original International companies recognized by the Advanced Imaging Association (now the A3) for prowess in Machine Vision Integration and business operations.

### Global Leader

Integro continues to be a trusted source for industries including pharmaceutical, medical, automotive, aerospace, consumer products, packaging, and more.
